EXPLORER COLLECTION

The L.G.R Explorer Collection is designed for those who seek adventure without compromising on style and craftsmanship. Inspired by the daring spirit of explorers, these frames embody resilience, sophistication, and a passion for discovery.

Iconic models from the L.G.R collection have been reinterpreted by Luca Gnechi Ruscone, reinforcing the brand's deep connection to Africa.

The Explorer versions feature distinctive cellulose acetate side flaps, designed with elegant apertures that draw inspiration from the three-light window of Ottica Bini, the historic emporium once run by Luca's grandfather in Asmara. This unique detail not only enhances the aesthetic appeal but also pays tribute to the heritage that defines L.G.R.
