

MATSUDA

EYEWEAR 2025

VOLUME1

OUR PHILOSOPHY

In a world inundated with disposable goods, we choose to anchor ourselves in the time-honored traditions of craftsmanship and thoughtful design. Our distinctively Japanese approach combines over 50 years of artisanal mastery with cutting edge techniques in manufacturing. This approach guides a philosophy that is rooted in experimentation and is unmistakably Matsuda.

We celebrate the convergence of past and present and the eclectic result of East meets West. We trust in the wisdom of studied craft informing design and in creating beautiful objects that promote individuality and expression; objects that last a lifetime.

250 STEPS, 17 HOURS, 13 CRAFTSMEN

Each of our designs is crafted by hand in the renowned eyewear workshops of Sabae, Japan - requiring up to two years and as many as 250 steps to bring to life. This is eyewear created through 50 years of experimentation and creative exploration: each frame reflecting a unique journey from concept to construction. We are always seeking new and innovative techniques to express our latest ideas.

M2069

NEW RELEASE

M2069 SUN | ESSENTIAL

DESCRIPTION

The M2069 is designed to exude bold confidence and youthful energy. Featuring a chiseled yet subdued silhouette, this frame is crafted entirely from Japanese acetate except its thin titanium temples and elevated with precious metal studs on the rim, making it a perfect choice for those who embrace contemporary sophistication with a spirited edge.

M3151

NEW RELEASE

M3151 SUN | ESSENTIAL

DESCRIPTION

The M3151 combines the timeless navigator style with modern craftsmanship. A hand-layered top bar and titanium temples give this frame its bold yet lightweight feel, while the all-titanium construction ensures durability and comfort. Inspired by early 20th-century pilot glasses, this design honors its heritage with a refined, contemporary edge.
